

Driver Safety E-learning

Description

As an Authorised Partner of RoSPA, Pregem is able to offer its customers a wide range of driver and fleet training services delivered by RoSPA but at discounted rates.

This online course is divided into five modules, including levels of risk on the road, system of car control, defensive driving, factors affecting driving and vehicle technology.

RoSPA's E-learning uses a variety of methods to transfer information across to the user. Individuals can choose their preferred option from a variety of learning styles. This is coupled with interactive activities to complete and video clips from RoSPA's 'Driving for Work' film.

Knowledge checks are spread throughout the training to ensure users have a full understanding of areas covered.

Objectives

This online training programme is designed to help drivers develop the attitude and behaviours necessary to manage today's driving situations in the safest way.

Benefits to client

- Cost-effective
- Ideal for anyone driving for work
- Can be accessed anywhere with internet access
- Ideal for drivers who are not office based
- Ideal solution following risk assessment, especially for medium risk drivers
- Can be used for high risk drivers who are awaiting a practical training session as the content compliments the techniques given on the road

Duration

The course takes around 90 minutes to complete, though delegates are able to log in and out at any time.

Additional information

A standard broadband connection is required for this course to run correctly.

On successful completion of the course, participants will receive a certificate of training.

This course can be purchased in combination with our Driver Profiler product to provide the most cost-effective way of providing some training to all drivers.

Please note that whilst the e-learning can complement on-road training, it should not be used instead of practical training for drivers who have been assessed as higher risk.

Managed service options are available.

Available as a SCORM compliant option through LearnForce Cloud.
